BAD WEATHER HALTS AIRPLANE VOYAGE

By the Associated Press
CHATHAM, Mass., May 12.—Weather conditions remained unfavorable today for the resumption of the flight of hydro-airplane N. C. 4 to Halifax, and Trepassey, N. F., to join the N. C. 1 and N. C. 3 with which the N. C. 4 began the trans-Atlantic flight.

What is "Common Clay?"

Notice Masons.
Ada Lodge No. 119, A. F. & A. M. will meet in called communication tonight for the purpose of work in Master's degree.—Miles C. Grigsby, W. M.

What is "Common Clay?"

HUNS UNFURL NEW BANNER

**INSCRIPTION SAYS WILSON
ABANDONED FOURTEEN
POINTS.**

By the Associated Press
BERLIN, May 12.—"Germany has unfurled a new banner on which are inscribed President Wilson's fourteen points which the president apparently has deserted," said Friedrich Ebert, president of Germany, in a statement to the Associated Press.

Ebert called the treaty a monstrous document declaring that history holds no precedent for the determination to annihilate completely unvanquished peoples.

REPLY TO HUNS ALMOST READY

**COUNCIL OF FOUR AGREE ON
MOST POINTS IN ANSWER
TO NOTES.**

By the Associated Press
PARIS, May 12.—The Council of Four has decided on most of the terms to be embodied in the reply to be made to the two notes sent to Premier Clemenceau Saturday evening by Count Von Brockdorff-Rantzau. The first of the notes asks that there be a reciprocal policy as to repatriation of prisoners and requested that details of the transfer be left to a mixed commission. In the second note the Germans advanced a counter project as to international labor legislation. According to the newspapers the basis of the second note is the labor charter inspired by the recent conference at Leeds and Berne. The nature of the replies had not been divulged.

PRESIDENTS SELECTED FOR THREE NORMALS

OKLAHOMA CITY, May 12.—At a meeting of the state board of education held Saturday presidents were selected for Central State Normal school, Edmond; Northwestern State Normal school, Alva; and Northeastern State Normal school, Tahlequah.

W. G. Masterson, superintendent of schools at McAlester, was selected as president of Central; J. P. Battenburg, of Atoka, was selected as president of Northwestern; and W. T. Ford, of Edmond, was selected as president of Northeastern. Ford, the new president of Northeastern, taught mathematics in the school, prior to four years ago, when he became an instructor at Edmond.

AT THE PLAY HOUSES

LIBERTY.

The Fads and Fancies of 1919 open an engagement here this evening presenting Little Miss Ada, or Two-Fifteen. This is a talented company and the programs will be highly entertaining. The picture program presents Gloria Swanson in the drama, Wife or Country.

AMERICAN.

Another wonderful episode of The Lighting Raiders with Pearl White in the leading role. It grows more interesting all the time and is approaching the grand climax. Besides this will be two laughable comedies, Crack Your Heels and Scamps and Scandals.

**SUP. HICKMAN MOVES
OFFICE TO DOUGLASS BLDG.**
The office of the superintendent of the city schools has been moved to rooms in the second story of the Douglass building.

WEATHER FORECAST.

The weather man is not very optimistic over Tuesday, venturing the opinion that it will be cloudy and probably local showers visit Oklahoma.

PETROGRAD TO BE ATTACKED?

**REPORT SAYS ALLIES WILL
SEND TROOPS AGAINST BOL-
SHEVIKI CENTER.**

By the Associated Press
STOCKHOLM, May 12.—Entente forces are preparing for military operations with Helsingfors the capital of Finland, as the base for an attack on Petrograd, according to a Helsingfors dispatch to the Afton Tidningen. Fifty thousand troops are expected to take part in the operations according to a dispatch which says French cruisers are now lying in the Gulf of Finland off Helsingfors ready to take part.

Unofficial reports state that Admiral Kolchak, head of the Omsk government, has issued an appeal to the allies for aid, saying that his forces are hard pressed by the bolsheviks and that unless the allies come to his aid immediately he will appeal to Germany. It is not known whether the purported preparations mentioned in the Helsingfors dispatch has any connection with the Kolchak appeal.

VICTORY LOAN IS OVER SUBSCRIBED

WASHINGTON, May 12.—The fifth and last popular war loan of the United States has been over-subscribed.

Although the approximate total subscriptions will not be known for nearly two weeks, figures available tonight showed that the American people had responded generously to the appeal to "finish the job."

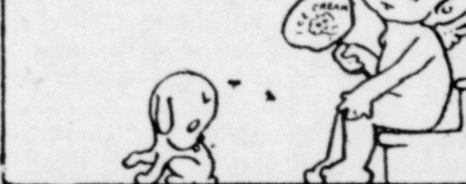

Last Minute Finish.
Like all of its predecessors, the Victory loan suddenly jumped on the last day of the campaign above the mark set as its limit. The day brought an avalanche of subscriptions which banks could not attempt to count until next week. None of today's harvest was included in the total of \$3,849,938,000 subscriptions officially tabulated tonight by the treasury, and officials would not be surprised to see that final figures go to nearly six billions. Only \$4,500,000,000 will be accepted.

The state of Oklahoma has taken its quota in the Victory loan with a safe margin, according to a statement issued last night by N. R. Graham and Chester H. Westfall, state directors. Official figures give the state a safe margin over its quota of \$28,382,800 and unofficial reports show it probably exceeds its quota by a million and a half dollars.

Oklahoma led the states of the Tenth Federal Reserve district in percentages of quota subscribed from the opening of the campaign. It was the first state to have its quota officially subscribed.

THE CHEERFUL CHERUB

At night I sit on our front steps
And gaze at all the friendly stars
And hear the lovely popping sounds
Of other peoples' motor cars.
R.T.C.

IT MAKES NO DIFFERENCE.

It makes no difference what you lose if you are able to find it. It makes no difference what you want if you are able to get it. It makes no difference what you have to sell if you are able to sell it. Now does it?
News "want" or "classified" ads are the shrewdest detectives in the world. They find lost articles; they get you a cook, a man to work the garden, or anything else you want that can be had in the city of Ada; and they will sell your wares if you will use them.
One cent per word per day is all they cost. Use the phone.

What is "Common Clay?"

VILLA AGAIN ON WAR PATH

**BURNS RAILROAD BRIDGES IN
NORTHERN MEXICO, RE-
PORT SAYS.**

By the Associated Press
WASHINGTON, May 12.—Five bridges on the branch of the National railway of Mexico between Torreon and Chihuahua have been destroyed by Villa forces, according to advices received here from Mexico City quoting a "high official" of the Mexican government. The increasing boldness of Villa's attacks is causing alarm in northern Mexico and troops are being rushed to the scene of the trouble.

TREATY WITH AUSTRIA READY

**FRONTIER SAME AS MAPPED
OUT BY TREATY OF
LONDON.**

By the Associated Press
PARIS, May 12.—The peace treaty with Austria is nearing completion and an official summary of it is being prepared as was done in the case of the German treaty. Although it is not so stated in the treaty the new Austrian frontier is the one designated by the secret treaty of London, giving Italy all strategic heights and defensive passages.

Delegation En Route.
VIENNA, May 12.—The Austrian peace delegation will leave Vienna at 5:20 o'clock today on a special train. The delegation is due to arrive at Paris Wednesday.

CORN TAKES BIG JUMP AT CHICAGO

By the Associated Press
CHICAGO, May 12.—Sensational skyward flights of prices in the corn market resulted today from the meagreness of readily available supplies and prospects of further wet weather delays to planting. Corn for spot deliveries went to \$1.77 after midday.

PROPERTY OWNERS ASK FOR PAYING

Petitions have been presented to the city commissioners by property owners affected asking that West 18th street from the paving on South Johnston to Townsend be paved and that Townsend be paved from 20th street to 12th. About ten blocks are affected by the proposition.

ITALIANS CONFER WITH COL. HOUSE

By the Associated Press
PARIS, May 12.—Baron Sonnino, Italian foreign minister, held a conference today with Col. E. M. House of the American peace delegation. The conferees went over the Italian situation with a view to reaching a basis for adjustment of differences before the Austrian delegation arrives.

Nazarene Meeting Closes.

Dr. A. G. Jeffries and J. J. Douglass returned to their homes in Peniel, Tex., this morning, after closing a very successful series of meetings under the auspices of the Nazarene church which were held in the tabernacle in Wheeler Park. Dr. Jeffries, comes from a college town and is one of the most wide-awake forceful evangelists that has been in Ada for some time. His choir director, J. J. Douglass is equally as proficient in his line of work and in spite of the hovering clouds and daily rains which frequented our city last week, large crowds assembled to hear Dr. Jeffries' addresses, which were of unusual interest and lasting good. They closed last evening with a crowded tabernacle and much interest.

MAY SALE NOW IN PROGRESS.

**SWEET GIRL
GRADUATES AND
JUNE BRIDES**

Will find this May Sale Unusually Interesting.

WHITE GOODS

Ideal for Graduation Frocks and Trousseau.

and again we thank you

You are paying the government tax on luxuries so readily and uncomplainingly that it deserves special mention. Just why the framers of this law should deem PATENT MEDICINES luxuries we are at loss to understand. There are some very worthy and very NECESSARY patents and proprietary medicines—and the government says that we MUST COLLECT THIS TAX FROM THE CONSUMER.

TAXABLE ITEMS HERE ARE—

Proprietary medicines and medicinal soaps, perfumery and toilet preparations except soaps not medicinal, cameras and their accessories, Thermos bottles, etc., and any additional items considered luxuries.

MOST ALL FOUNTAIN DRINKS ARE TAXABLE.

Gwin & Mays Drug Co.

ADA
TOWN

Who owns the proprietary right
to the red flag, anyway? The an-
archists long ago proclaimed it
theirs, then came the socialists and
appropriated it and last of all the
bolshewists are raising merry ha-
des under its folds.

Villa is making trouble again.
Had Carranza given Pershing and
his American expedition a free
hand three years ago Villa's head
might now be gracing a pole as a
memento to other bandits, but old
Whiskers appeared to love his en-
emy Villa more than he did his
American friends and Villa was al-
lowed to escape, no doubt with Car-
ranza's connivance.

The Germans are demanding a
"just peace." That is exactly what
the allies purpose to give them but
still the Huns are not satisfied.
With the example they set at Brest-
Litovsk and Bucharest it is plain
that a peace based on force is their
idea—when they are dictating the
terms—but when applied to them-
selves it becomes oppression and ty-
ranny. They are getting in a mild-
er decree what they gave Russia
and Rumania.

A week of mourning has been or-
dered by the German government as
a token of the feelings of the na-
tion toward the terms of the peace
treaty. It is not a mark of repen-
tance and confession with them for
past crimes, but because they hav-
ing danced are now called on to pay
the fiddler and the price is a trifle
steep. The allies know the bunch
too well to be humbugged by this
show of grief, being fully aware that
the main part of it is due to the
sorrow of the Huns that they can't
do as much and more to the allies.

It is not surprising that Oklaho-
ma went over the top in the Victo-
ry Loan. This state has always
done that, whether in government
and organized war work or in busi-
ness matters. It is also a matter
of pride that Pontotoc county was
the second in the state to go over
the top. This was made possible by
the action of the banks of Ada,
Fitzhugh, Toft, Stonewall, Allen and
Francis in taking a chance and un-
derwriting the county's quota. The
citizens subscribed liberally, as they
always do, and the record made un-
der the leadership of R. W. Simpson
keeps this county at the front. At
the outset the prospect was extreme-
ly blue and failure was freely pre-
dicted, but who ever heard of Pon-
totoc county falling down? To live
in such a state and county is a
matter for pride.

The State Press

Perry Republican: It's all over
now. The Thomas bill, which re-
quires the counties to pay 25 per-
cent of cost of hard-surfaced roads,
will meet the same fate.

Pauls Valley Enterprise: Since
the cost of paving has gone so
high, the Enterprise favors building
at least one hard-surfaced road
through town. It will not only add
one more paved street to the city
but will also give an opportunity to
test the merits of the kind of hard-
surfaced roads we would have had
as a result of the \$50,000,000 bond
issue that failed to carry. We hear
of other towns which have had
gravel surfaced streets for as long
as fifteen years with practically no
repairs. Let's try some of them in
Pauls Valley.

Bartlesville Examiner: It is
doubtful if another comprehensive
highway measure will be placed be-
fore the people of Oklahoma for
many years. There is every rea-
son to believe the rural vote would
be as strong against county partici-
pation as in statewide action. Indif-
ference on the part of the urban
voter can be expected to be as mark-
ed in the future as in the past. Lack
of confidence in new leaders and
new measures can be expected in the
future as was evidenced in the elec-

tion just held. The bonds are de-
feated. Oklahoma is stuck in the
mud, but many additional millions
are available each year to spend in
hit-or-miss methods.

Muskogee Phoenix: We con-
gratulate the political enemies of
the governor, the politicians dis-
gruntled on general principles, the
Little Muskogees, the "apostles of
gloom," upon their success in cut-
ting down the expected majority for
the road bonds in this city. It was
an inglorious accomplishment,
ignobly won. Every specious argu-
ment, every misleading statement,
every false accusation that could be
thought of by the Mephistophelian
cabal engineering the opposition
was resorted to. It was a lopsided
return for the governor's interest in
the fortunes of the city; a beauti-
ful reciprocal factor to the chief
executive of this state who has dis-
covered that Muskogee was on the
map. And we not this interesting
situation in the face of the
fact that the first governor of Okla-
homa was a citizen of Muskogee.

Konawa Chief-Leader: The
brewers are going to brew beer of
2.75 per cent alcohol as a test of
the prohibition law. Now the only
thing for the consumer to do will
be to buy several barrels of the
brew and get to work with a
cream separator.

Lawton Constitution: Did you
ever stop to think how much a
word of encouragement may mean
to a man or woman? If you find
somebody doing something that you
think commendable give them a
word of encouragement. It will
cost you little, help the other fel-
low, and give them a more kindly
feeling toward you and toward
mankind in general.

Ardmoreite: It probably is true
that Oklahoma City's reason for
voting against the good roads mea-
sure was what may be termed a pa-
triotic reason. Those twelve tire-
patch factories in O. C. must be
supported, don't you know.

Eufaula Indian Journal: Okla-
homa took a step backward Tues-
day in voting down the good roads
bond issue that will set us back 20
years, and we doubt that within the
next 50 years will be able to
build a system of hard surface roads
connecting every county seat in the
state as was proposed in the mea-
sure voted down.

Muskogee Times-Democrat: The
Hun seized colonies because he had
the power. That was wicked, and so
we corrected the matter by taking
them away from him because we
had the power.

Tulsa World: A New Jersey
professor will make a close investi-
gation of the oyster for the pur-
pose of discovering what he eats.
We have tasted some that were so
thin it was not reasonable to sup-
pose they had eaten anything.

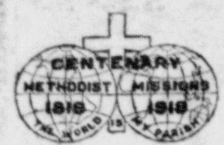

In looking over the Ada Even-
ing News of Saturday we note that
the editorial staff of that publication
has undergone a change. Mr. Byron
Norrell who had served as editor for
the past eight years giving up the
helm to Mr. Marvin Brown, a former
citizen of Ada and who helped to
establish the News many years ago.
We welcome Mr. Brown back into
the field of journalism in Pontotoc
county and wish him together with
the News every success. Our deal-
ings with Mr. Norrell and with
the News force generally during
our twelve months with the Eagle
have been, indeed, pleasant, they
never having failed to extend us
every courtesy.—Roff Eagle.

HARLOW MUST BE GUESSING.

From Harlow's Weekly.
Newspaper changes of political
significance have been made during
the week. H. G. Spaulding, who
has been at the head of the Ard-
moreite since that newspaper was
purchased of Colonel Sidney Suggs,
has disposed of his interests in
Ardmore and purchased the daily
Shawnee News-Herald of Otis B.
Weaver. Announcement of the trans-
action has been made, but Mr.
Spaulding will not take charge of
the publication until June 1. Mr.
Spaulding has been in the state
three years, coming to Oklahoma
from Beaumont, Texas. Mr. Weaver,
who is also postmaster at Shawnee,
retains several weekly publications
in Pottawatomie county and will
therefore not retire from the pub-
lishing field.

Another change occurred at Ada,
where Marvin Brown has purchased
a controlling interest in the News.
Editor Byron Norrell retiring after
many years service. Brown was one
of the News founders and was for
many years identified with Okla-
homa journalism, but later became
managing editor of the Menace,
a religious weekly published at Au-
rora, Missouri, and which gained a
wide circulation. While disclaim-
ing it, Brown is a politician and a
writer of great force. There is a
well circulated rumor that these
two changes, together with the re-
cent one at McAlester where Cap-
tain Myers purchased the interests
of Roy Williams in the News-Cap-
ital may have some bearing on the
senatorial campaign of next year, as
all of the retiring editors were at
least friendly and at least one of
them a very ardent friend to Sena-
tor Thomas P. Gore. Mr. Spaulding,
while at Ardmore, ran at the top
of the paper, each day, a line tell-
ing how many more days Senator
Gore had to serve.

\$15,000.00

Pledge to run through five years.

Every Member and Each Friend of the
Congregation Will be Solicited Per-
sonally for Individual Pledge.

Liberty Bonds Accepted at Par.

Industrial Oklahoma

PAULS VALLEY—A deal was
closed recently by the local Cham-
ber of Commerce with M. M. Egan
and Sons, of Fort Worth, Texas, for
the erection of a twenty-five ton
peanut oil mill at this place. The
plant will also be equipped for mix-
ing feed, especial effort to be put
on the mixing of alfalfa hay and
molasses into a balanced stock ra-
tion. A daily capacity of seventy-
five tons of feed will be added en-
terprise to the extraction of peanut
oil. The plant will employ sixty
women and 15 men.

MANGUM.—The attraction of two
dollar wheat has so greatly increas-
ed the acreage of this crop in
southwest Oklahoma that a 1500-
bushel wheat elevator is being built
at Mangum. The line of demarka-
tion has been strong in the state,
the north half being dotted with
wheat elevators and the southern
half with cotton gins. A few years
ago it would have seemed ridiculous
to talk of building wheat elevators
in the southern part of the state.
The new elevator here is a Farmers'
Co-Operative concern and will be
completed about July 1st.

WALTERS.—The Blue Ribbon
Oil and Refining Company have let
the contract for the erection of a
refinery on their site here. The
plan is to have a five thousand bar-
rel plant erected in units of one
thousand. The contract has been
let to H. C. Leete of Oklahoma
City. They expect to have the
plant in operation August 1st.

CUSHING.—A new \$25,000
church being erected by the Pres-
byterians is a substantial and cre-
ditable improvement to this place.

FREDERICK.—A fifteen hun-
dred barrel refinery is being built
here by the Frederick Oil and Re-
fining Company. H. C. Leete of
Oklahoma City has the contract.

CHESTER.—The City Council
has advertised for bids on twelve
blocks of paving on the main street
of the town. Some effort is being
made to extend the paving to a por-
tion of the residence district.

BLACKWELL.—The Blackwell
Mill and Elevator Company is re-
building its elevator B, located in
Blackwell, which was destroyed, to-
gether with many thousands of
bushels of grain, by a fire more than
a year ago. The new structure is to
be fireproof and will be of a much
greater capacity than that of the
old one.

BLACKWELL.—Business Houses
and farm land are being sold and
traded more rapidly just now than
for many months. Within the past
two weeks there have been numer-
ous business houses sold, and many
farms as well. The extremely good
prospects for crops this year makes
land trading brisk, with some sell-
ing as high as \$40,000 per quarter,
while the oil lease is not considered
to be of little or no value.

DRUMWRIGHT.—Contract for the
erection of Drumwright's new high
school building has just been award-
ed to the A. F. Stewart Construc-
tion Company of Oklahoma City,
on a bid of \$209,760. Drumright
labor will be employed and the Okla-
homa City concern takes over the
municipal bond issue which was
voted to pay the cost.

JEFFERSON.—Work will begin
on the \$45,000 school building soon.
EL RENO.—The Karns Spur
Grain Company is building a 10,000
bushel grain elevator west of Calu-
met.

OKLAHOMA CITY.—According to
E. L. Fulton, chairman of the board
of directors, the First Church of
Christ, Scientist, will build a new
church soon, which will cost be-
tween \$90,000 and \$110,000.

McALESTER.—This city is soon
to have a three story reinforced,
concrete, brick and stone building.
The building is 100x213 feet, is of
fireproof construction, heating, ven-
tilation, plumbing and electrical
wiring included in the general con-
tract. Plans are now on file and
can be secured upon application for

same at the office of W. G. Master-
son, City Superintendent.

HOLDENVILLE.—After dragging
along without a courthouse since
the coming of statehood, Hughes
county has voted bonds in the sum
of \$75,000 for that purpose.

PONCA CITY.—E. W. Marland,
president of the Marland Refining
Company, has organized a local
building association for the purpose
of building forty modern homes in
this city. The homes will be six-
room and fixed up in modern style.
They will be sold to the employees
on the installment plan, with the
primary view of encouraging home
ownership. Mr. Marland is enthu-
siastic over the plan and declares
that the home owner makes the best
employee.

TULSA.—Building permits for the
month of April will reach the re-
markable figure of \$600,000 accord-
ing to local estimates. There is
greater building activity in Tulsa
at this time than at any period in
her career. It is estimated that
there is a present need for at least
3,000 apartment houses. Local in-
vestors are finding this kind of
building profitable and are trying
to meet the demand.

BRISTOW.—Petitions are being
circulated for action on paying at
least twenty five additional blocks
along the main streets of Bristow.

HUGO.—Congressman Charles D.
Carter is making an effort to secure
an appropriation of \$125,000 for a
federal building in this city. Hugo
is the United States court town for
Southeastern Oklahoma and is also
district headquarters for the Depart-
ment of Indian Affairs.

MUSKOGEE.—The city will buy
the \$12,500 Detention Hospital
bonds. The Viaduct bonds have
not yet been approved by the at-
torney general, according to state-
ment made by Kelly Brown, city
attorney.

BEGGS.—The \$25,000 Water-
works bonds carried.

BLANCHARD.—An election was
held May 2, to vote on the is-
sue of negotiable coupon bonds in
the sum of \$45,000, to provide
funds for the construction of a wa-
terworks system. F. G. Morgan,
President of Board; W. E. Green-
wood, Clerk.

EL RENO.—An election will be
held in the near future to vote on
the issuance of the following bonds:
\$85,000 for sewer extensions, and
\$25,000 for the purchase and im-
provement of city parks. P. P. Duf-
fy is city mayor. Emery Barker,
Commissioner of Highways and Pub-
lic Improvements.

CHEYENNE.—The \$60,000 Chey-
enne Township bonds carried.

FREDERICK.—The city council
is behind City Engineer C. E. En-
sminger to urge a bond issue of
\$150,000 to improve the sewer sys-
tem.

CUSHING.—A project which is
claiming considerable local interest
is the building of a \$25,000 hos-
pital. The Welfare Club of Cush-
ing has the matter in hand and a
definite proposal is to be made pub-
lic soon.

How to Figure Income Tax.

Take the first three figures of
your automobile license and add it
to the size of your shoes then sub-
tract from the number of buttons
on your last winter's suit. Divide
this by the size of your collar. Add
this to the amount of your unpaid
taxes and laundry bills, and then
divide this by 30 per cent of your
telephone number. Next add the
total height of your entire family,
plus your serial number in the
draft, divided by all the speeches on
the increase of pay for shipyard
employees that have been made and
this will constitute your income tax.
—Sam Jones.

Delphian Club.

The Delphian Club will meet in
the Methodist church parlors Tues-
day afternoon at 3:30 in regular
session.

COMPENSATION AND INSURANCE EXPLAINED

Treasury Department, Washington,
December 27, 1918.

Statement by Secretary Glass.
Considerable confusion and much
misunderstanding seems to prevail
among the relatives and beneficiaries
of men in the military and naval
service as to their rights under the
War Risk Insurance Act. Many
mothers and fathers named as ben-
eficiaries of the government insur-
ance applied for by their sons have
gained the impression that they
must prove dependency in order to
receive payments of insurance. This
is an entirely erroneous impression
probably due to a confusion of the
insurance and compensation provi-
sions of the Act of Congress of Oc-
tober 6, 1917, and to a mistaken as-
sumption that the terms "Insur-
ance" and "compensation" are used
interchangeably, whereas they re-
present two entirely separate and
distinct benefits.

Insurance is payable regardless of
any dependency and a beneficiary
designated in an application for
Government insurance if within the
permitted class of spouse, child,
grandchild, parent, brother, or sis-
ter is entitled to receive the insur-
ance in monthly installments with-
out proving any dependency upon
the insured.

"Compensation," however, which
is separate and apart from insur-
ance and takes the place of the pen-
sions provided under the old pen-
sion system is payable only to a
wife, child, dependent mother, or
dependent father of a man who is
disabled or dies as a result of in-
jury suffered or disease contracted
in the line of duty while employed
in the active service. Compensation
may be payable in addition to in-
surance, but a mother or father
must prove actual dependency in
order to receive monthly payments
of compensation although they will
receive the insurance in monthly
installments if named as the ben-
eficiary thereof whether they are de-
pendent or not.

No dependency need be shown by
any beneficiary in order to receive
the Government insurance, but a
mother or father must prove actual
dependency upon their deceased son
for the necessities of life in order
to receive the additional payment
of compensation.

CARTER GLASS,
Secretary of the Treasury.

ELECTION PROCLAMATION.

Under and by virtue of a resolu-
tion, passed by the Board of Edu-
cation, of the City of Ada, State of
Oklahoma, at a meeting held on the
8th day of May, 1919, public notice
is hereby given:

That a special election is hereby
ordered and proclaimed to be held
in said school district, comprising
said city and the territory annexed
thereto for school purposes, on the
22nd day of May, A. D. 1919, for
the purpose of submitting to the
qualified electors of said school dis-
trict the following proposition:
Shall the levy for the fiscal year
beginning July 1, 1919, and ending
June 30th, 1920, for the support
and maintenance of the schools of
the Board of Education of the City
of Ada, of the State of Oklahoma,
for said fiscal year, be increased
above five mills by the amount of
9.7 mills so as to meet the estimate
made and approved?

The Polls shall be opened at 6
o'clock A. M., and closed at 7
o'clock p. m.

The number and location of the
polling places shall be as follows:

First Ward—City Hall, Police
Court Room.
Second Ward—News Office, North
Broadway.

Third Ward—Ellis & Son's Fur-
niture Store, West Main St.
Fourth Ward—Ada Marble &
Granite Works, 217 West Twelfth
St.

Said election shall be held in the
territory annexed to the said City
of Ada for school purposes and ly-
ing outside of the limits of said
City at the following places of polls:

In that part of said annexed
territory adjoining the first ward of
said City of Ada and within the
limits of the boundary lines of said
ward extended, at City Hall.

In that part of said annexed
territory adjoining the second ward
of said City of Ada, and within the
limits of the boundary lines of said
ward extended at News Office, North
Broadway.

In that part of said annexed
territory adjoining the Third Ward
of said City of Ada and within the
limits of the boundary lines of said
ward extended at Ellis & Son's Fur-
niture Store, West Main.

In that part of said annexed
territory adjoining the Fourth Ward
of said City of Ada and within the
limits of the boundary lines of said
ward extended at Ada Marble &
Granite Works, 217 West Twelfth
Street.

The following named persons are
hereby designated to conduct said
election:

First Ward—John W. Beard, In-
spector, C. M. Chancey, Judge and
H. P. Suggs, Clerk.

Second Ward—T. O. Cullins, In-
spector, R. L. Holcomb, Judge, and
P. T. Drummond, Clerk.

Third Ward—Robert Ellis, In-
spector, Martin Hively, Judge, W.
A. Alexander, Clerk.

Witness my hand as president of
said Board of Education affixed in
the City of Ada, in the State of Ok-
lahoma, this 8th day of May, A. D.
1919.

L. T. WALTERS,
President Board of Education of the
City of Ada, of the State of Ok-
lahoma.

It Doesn't Cost Much to Wire Your Home!

For years you have probably longed to have electricity in your home and denied yourself and family the comforts and pleasures of its use because you thought it a luxury—an expensive household convenience which you could do without.

But electricity is no longer a luxury. It is a necessity, proved by the convenience of such household comforts as the electric toaster, flatiron, coffee percolator, table grill, electric cleaner and other appliances which make easier the many duties of the busy housewife.

The cost of installing electricity is soon repaid in the economy that is yours in the use of the many convenient electrical appliances.

So don't wish any longer for electricity in your home—HAVE IT. The time to act in the matter is RIGHT NOW.

DO NOT BE TROUBLED BY BIG SHOE BILLS

Fifteen months of service from a pair of Neolin Soles is claimed by F. T. Evans of Seattle, Washington. "Then I had them half-soled and they are still good," says Mr. Evans.

Big shoe bills do not trouble the man who gets wear like this from his shoes. If you are interested in cutting down your shoe expense, be sure that the shoes you buy have Neolin Soles.

You can get them on new shoes in many styles for men, women, and children; and they are available everywhere for re-soles, too.

Neolin Soles are made by Science to give long wear, and to be comfortable and waterproof. They are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also manufacture Wingfoot Heels—guaranteed to outwear all other heels.

Neolin Soles

WILSON.

Mr. Wright, the Edison man with Mrs. Wright spent Sunday at the L. D. Brandon home, also Luther Bevens and family and Bob Kerr visited with L. D. Brandon Sunday.

Velma Golden spent Saturday night with Christie Bivens.

Mrs. Grace Palmer has been visiting Miss Grace Reynolds.

E. W. Deatherage and Fred Stephens have purchased a new hay baler and are now ready to begin with the bumper alfalfa crop.

Miss Rennie Gibson visited the family of A. J. Gibson at Portland Park this week.

J. J. Golden went to Ada Saturday.

Geo. H. Priest, principal teacher, and Miss Myrtle Smith, assistant, closed school at Wilson Friday. The exercises consisted of an examination of the pupils, dinner in the building for all present, a delicious treat by the teachers to the school, games of different kinds one of which was a matched game of basketball with the girls against the boys which ended with a score of 43 to 44 in favor of the girls. The whole term of school was carried through without a jar and the patrons say the teachers have given almost universal satisfaction. Among the visitors from a distance were Mrs. Grace Palmer of Jesse, and Master Hubert Priest of Ada.

BILL.

When the Fire Alarm Sounds.
The following are given as official instructions in a Pacific Coast city:

"When you hear the fire whistle, immediately jump into your car, start on high and hike out to find the fire. Open your muffler, blow your horn and holler. If you can't make noise enough, get a few noisy boys aboard to help you out."

"The city ordinance provides that upon the approach of any fire apparatus, the driver of any vehicle shall immediately stop such vehicle as near as possible to the nearest curb and remain there until such fire apparatus has passed. This is for the other fellow. It doesn't mean you. The city ordinance also prohibits driving over the fire hose. This is also for the other fellow."

"When you hear the fire truck coming, get an even start and race with it. Don't forget to open your muffler, blow your horn and holler; it makes the race more exciting."

"There is also an ordinance prohibiting stopping a vehicle within fifteen feet of a fire hydrant, but don't let this prevent your parking right in front of the one nearest the fire. There are plenty of hydrants, and the firemen can hunt until they find one."

"If you haven't any car, get to the fire the best and quickest way you can and get in the firemen's way to the limit of your capacity. Also have all the women folks come along to add eclat."

"If you are not in too much of a hurry, call up central and ask where the fire is. If you don't get immediate attention, cuss good and plenty, as any telephone girl who can't answer you and six hundred other subscribers—who want to know where the fire is—all in a minute."—Oxnard, Calif., Daily Courier.

A Disappointed Audience.
In response to previous announcements from the pulpit, as well as extensive advertising in the News, a large audience collected at the Baptist church last evening to hear an address from Hon. Tom D. McKeown, but for some reason the speaker failed to show up. Rev. Morris was equal to the occasion, however, and preached a splendid sermon. The pastor expressed the hope that he would be able to secure Mr. McKeown at a later date.

What is "Common Clay?"

STORY OF ENGINEERS ON FRENCH FRONT

By the Associated Press.

WASHINGTON, May 12.—The war story of the Engineer Corps at home and in France is told officially for the first time in a chapter of the War Department's brief history of American war efforts made public today in advance sheets. Many of the recorded accomplishments of the engineers have been published before as isolated incidents, but this is the first complete and connected story which gives any idea of the extraordinary scope of the duties modern warfare has laid upon engineering troops.

Probably the best illustration of this so far as the troops in France are concerned is the technical organization of the units of the engineers which reached the other side. There were seven regiments and two battalions of railway construction engineers; five battalions for maintenance of way; two battalions for maintenance of railway equipment; four regiments and one battalion to operate the main American railways in France; three regiments to operate light railways and their repair shops; two regiments to operate the regular railway repair shops; two regiments and six separate battalions on general construction work; two regiments for storing and transporting engineering supplies; a forestry regiment; a light railway construction regiment; a good road building regiment; a water supply regiment; a mining regiment; a quarrying regiment; a technical regiment for surveying and sound ranging; three survey and printing battalions; two railway transportation battalions; an electrical and mechanical regiment; several separate companies to operate cranes; a camouflage service; five inland waterway companies to operate canal boats and the like; five pontoon trains and a pontoon park; a railway transportation and stores battalion a searchlight regiment.

These special units, all composed of men trained in civil life in the United States for the work they did in France, were in addition to the fighting engineers with each division, the sappers, who formed about eight per cent of all the combatant troops in France.

One section of the report is devoted to the development of American railways in France and to the production of railway equipment in the United States to meet the call for the front. There were shipped to France 1,303 locomotives before the armistice was signed of which 908 were in service at that time. In addition, 18,313 freight cars were shipped abroad, both engines and cars having been produced specially for service France. These were employed upon the 937 miles of standard gauge track laid in France by the engineers with equipment shipped from this country and the rolling stock was in addition to great quantities of light railway equipment for front line work that was also sent abroad.

Hospital trains were obtained in England, 19 of them with a total of 304 cars having been completed by December, 1918 with 29 additional trains under construction. They cost more than \$18,000 per car, but it is estimated that to have produced them in the United States and shipped them would have cost \$40,000 per car.

The report lays stress on the fact that great progress was made during the war in the development of road building, railway and other engineering equipment which will be of value commercially in peace time. The motorized machine shops alone, it is stated, are practically certain to bring about in this country the use of moving shops of this character in agricultural communities as farming machinery increases.

"The day may come," the report says, "when the traveling machine shop will be a familiar sight upon our rural highways."

Among the motorized shops created were the photolithographic press trucks which were able to reproduce maps from original sketches within 12 hours as compared with four days required by similar French and British units.

A special chapter is devoted to listening instruments developed during the war to locate hidden guns. Improving upon allied designs, the engineer corps produced machines for this purpose which operated with "unfanny accuracy," one of them having spotted 117 German gun positions in a single day. Subsequently these were followed by instruments of even greater power and at the close of the war there were 12 complete outfits, each covering a five mile stretch of front, at work on the American lines.

Similar development of instruments for locating hostile airplanes were carried out until it was possible to determine the location of a raider at night within an angle of three degrees. The American types produced were easily portable and quickly set up to aid the searchlights. A hint at the scientific developments which were in sight in connection with these sound ranging devices is contained in the following paragraph:

"When the fighting stopped our military scientists and others co-operating with them were working on the development of a sound ranging apparatus intended to give troops warning of shell fired by the enemy in their direction. The preliminary experiments found that at 4.1 miles these mechanisms could detect the firing of the gun as long as 19 seconds before the shell arrived, thus giving troops ample time to get under cover. Such a devel-

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

oment was possible because of the far greater speed with which earth vibrations travel than those of sound in the air.

"Except for lack of time in the brief seconds between the firing of the gun and the arrival of the shell, it would be quite possible with this proposed apparatus to calculate almost exactly where the shell would land."

The corps produced also a new form of searchlight more powerful than any that had preceded it in any army and with which the second field army had been partially equipped.

"It weighed," the report says, "one-eighth as much as lights of former design, cost only one-third as much, was about one-fourth as large in bulk and threw a light 10 per cent stronger than any other portable projector in existence."

The engineers were at work when the fighting ended upon a mechanism which would enable them to control searchlights from a distance.

The chapter devoted to the work of the Engineer Corps in France draws a vivid picture of the duties of the combat engineers who played their full part in the fighting from the beginning to the end. It also tells in detail of the building of the railways; the cutting down of French forests to convert them into barracks for American troops; of the miles of highways built and constantly rebuilt as shell fire tore them to pieces; of cement mills taken over in France by American troops to provide trench materials; of the great map printing plant where the engineers finally were able to produce not only all maps needed for the American army but even supplied the French Seventh and Eighth Army with base maps for their fronts. In this huge plant at Langres in November over 1,000,000 lightographic prints were made and over a million sheets of type work done. There is told also the story of a camouflage factory at Dijon where material to blind enemy airplanes' eyes and to confuse the enemy's pickets was turned out in vast quantities.

"Utilizing and applying the new knowledge and scientific achievements of recent years," the report says in concluding that portion devoted to the engineers, "drawing upon the fund of experience acquired by the regular army in its theoretical studies and past wars, making available the vast amount of technical skill which has assisted this nation to its present commercial and industrial status, the engineers of the United States army worked and fought, planned, and accomplished in France a work which in magnitude exceeds any similar undertaking recorded in American history. From base port to first waves of an assault upon the enemy's positions, engineer troops have been constantly in action first to last and have 'carried on' always with the high ideals of the profession and with the motto of the corps of engineers 'Essayons' before them."

RESOLUTION.

Whereas, The Board of Education of the City of Ada, of the state of Oklahoma, a body corporate and duly organized and existing as the corporate authority of the city school district comprising said City of Ada, and the outlying territory annexed thereto for school purposes, has determined the assessed valuation of said Board of Education for the fiscal year beginning July 1, 1919, and ending June 30, 1920, is not sufficient by a levy of five mills to create a fund sufficient to provide the funds that will be required to be raised by taxation for the support and maintenance of the schools controlled by said Board of Education for the said fiscal year; and, Whereas, It has been determined that an additional levy of 9.7 mills will be required for such support and maintenance;

Now, Therefore, Be It Resolved, by said Board of Education that a special election be called for the purpose of submitting to the qualified voters of said school district, comprising said city and territory annexed thereto for school purposes, the question of increasing the levy of said school district in the amount and for the purposes as above set forth.

Adopted and approved this 8th day of May, 1919.

L. T. WALTERS,
President Board of Education of the City of Ada, of the State of Oklahoma.
MABEL BROWALL, Clerk.

Ice Users

We Are Trying to Hold the Price of Ice Down.

Fuel alone cost us 5c per 100 lbs. more to manufacture ice than it did last year. Labor, and all material, has advanced over last year's costs some items of supplies in steel and repair parts are quadrupled.

In order to keep the price down it is necessary that you co-operate with us, we need help to do this, and to accomplish this it is necessary to make some changes in our sales system. In order to properly check our business we will have only one price to everybody. Drivers are not authorized to make rates.

Use COUPON BOOKS and get the lowest price. Telephone to the office or tell the driver the pounds of ice wanted at a delivery, and we will give you the price on the kind of book suited to your needs.

Main and Townsend

W. D. Little is spending the day in Oklahoma City on business.

Mrs. Azara McGee of Dallas, is visiting her mother Mrs. J. M. Perry.

Mr. and Mrs. Earl Emmerson returned today from a week-end visit with their brother M. L. Emmerson at Yeager.

Ben Wade, who is in the employ of the Western Union at Oklahoma City returned home this morning after a visit with his mother, Mrs. J. M. Perry.

Eat to Break Up Cold.

When a cold first starts physicians usually advise a light laxative diet, consisting chiefly of hot lemonade or orangeade, broths or gruels, with crisp toast, baked potatoes, mild, stewed fruits and vegetables. After this for a few days, until the cold seems to be broken, it is well to eat an ordinary diet, with plenty of fruits and vegetables. To aid the body in recovering eat meals which give more fuel value than usual.

Our Kind.

Said the facetious fellow: "Some day a festive cuss is going to get cute, and instead of putting in his will I hereby bequeath all my property, real and personal, will get a posthumous giggle by saying 'real and imaginary'."

Daily Thought.

Applause is the spur of noble mind the end and aim of weak ones.—C. C. Colton.

Fish Oil Made Palatable.

By treating fish oil with hydrogen a chemist has produced an oil suitable for food purposes and a solid substance closely resembling lard, which is tasteless.—Indianapolis News.

Novel Dance.
The word "ball," as applied to a dancing party, came to be used in the first instance from an ancient "ball play" given in church by the dean and choir boys of Naples during the Feast of Fools at Easter. At subsequent dancing parties in Naples the dancers threw a ball at one another to the sound of their own singing. They whirled about in measured time, and the sport consisted in loosening hands in time to catch the ball.

No Rabbits in Palestine.
Among the hoofed animals found in Palestine are the fallow deer, a European type, gazelles and other antelope, characteristic of Africa. The wild boar, still common, seems to have had for its Biblical companion Behemoth the hippopotamus, though this became extinct ages ago. His pigmy relative of the rocks, the little hyrax, is a well-known beast of Palestine, and is also of African type, Africa being the home of the family. This is the "coney" of Scripture, but there is no rabbit in Palestine.

What is "Common Clay?"
W. A. Green of Nashville, Tenn., and W. L. Philpot of Mount Juliet, Tenn., are business visitors in the city today. They informed the reporter that prospects for crops throughout this state were the finest they had seen.

CERTIFICATE

STATE OF OKLAHOMA, COUNTY OF PONTOTOC—ss:

We, the undersigned, duly elected, qualified and acting officers of the Board of Education of the City of Ada, Pontotoc County and State of Oklahoma, do hereby certify that the above and foregoing statement of the fiscal condition of Ada School District No. 19, County and State aforesaid, is true and correct, and that the amounts enumerated in the statement of Estimated Needs are reasonably necessary for current expenses in the proper conduct of the affairs of said school district.

We further certify that the above and foregoing is a true and correct copy of the statement and estimates prepared and made at a meeting held on the first Monday in May, 1919.

L. T. WALTERS,
President of Board of Education.
E. S. HARAWAY,
Treasurer of Board of Education.

MABEL BROWALL,
Clerk of Board of Education.

Boring Rocks Under Water.
To enable holes to be bored in underwater rocks no matter how rough the water, a Hawaiian engineer has invented a drill standard with a heavily weighted bottom, power being obtained through flexible connections with a vessel.

Highest Spire.
The highest spire in the world is that of Ulm cathedral, which is 530 feet in height; it was completed in 1890.

What is "Common Clay?"

"OUR DAILY THOT"

Regardless of any argument to the contrary, Edison Records cannot be played successfully on any other sound producing instrument but the NEW EDISON. May we have the opportunity of proving this to you?

Proclamation for Special School Election.

By virtue of the authority vested in me by the Charter of the City of Ada, and an amendment thereto, adopted at an election held upon the 17th day of March, 1914, and in pursuance to a resolution passed by the Board of Education of the City of Ada, State of Oklahoma, at a meeting held on the 8th day of May, 1919, I hereby call a special election to be held in said school district, comprising said City and the territory annexed thereto for school purposes on the 22nd day of May, A. D. 1919, for the purpose of submitting to the qualified electors of said school district the following proposition:

Shall the levy for the fiscal year beginning July 1st, 1919, and ending June 30th, 1920, for the support and maintenance of the schools under supervision of the Board of Education of the City of Ada, State of Oklahoma, be increased, for the fiscal year aforesaid, above five (5) mills by the amount of nine and seven tenths (9.7) mills, so as to meet the estimate for said fiscal year made and approved?

Said election to be held under the regulations of the Pontotoc county election board according to the provisions of the state election laws and the charter of the City of Ada, Oklahoma.

The designation, number and location of the various polling places shall be, as follows:

First Ward—At City Hall, police Court Room.

Second Ward—News Office, North Broadway.

Third Ward—Ellis & Son's Furniture Store, West Main Street.

Fourth Ward—Ada Marble & Granite Works, 217 West Twelfth Street.

Said election shall be held in the territory annexed to the said City of Ada for school purposes and lying outside of the limits of said City at the following designated polling places, to-wit:

In that part of said annexed territory adjoining the first ward of said City of Ada and within the limits of the boundary lines of said ward extended, at City Hall.

In that part of said annexed territory adjoining the second ward of said City of Ada, and within the limits of the boundary lines of said ward extended at News Office, North Broadway.

In that part of said annexed territory adjoining the Third Ward of said City of Ada and within the limits of the boundary lines of said ward extended at Ellis & Son's Furniture Store, West Main Street.

In that part of said annexed territory adjoining the Fourth Ward of said City of Ada and within the limits of the boundary lines of said ward extended at Ada Marble & Granite Works, 217 West Twelfth Street.

The polls to be opened at 6 o'clock a. m., and remain open until 7 o'clock p. m. The regularly constituted and authorized election officers as shall be provided for and designated by the county election board of Pontotoc county, State of Oklahoma, will be in charge of said election at said polling places.

Done this 9th day of May, A. D. 1919.

GARY KITCHENS,
Mayor-Commissioner of Public Justice and Safety of the City of Ada, Oklahoma.
